#### **Technical data**

#### **Basic data**

| Series                  | 30  |  |
|-------------------------|---|--|
| Contains                | Mounting bracket  |  |
| Application             | Collision protection of cranes / gantry<br>cranes           |  |
|                         | Fill-level monitoring                                       |  |
|                         | Final position monitoring                                   |  |
|                         | Positioning of skillet systems and side-<br>tracking skates |  |
| Type of scanning system | Against object  |  |
|                         |   |  |

#### **Characteristic parameters**

#### **Optical data**

| Light source                         | Laser, Red             |
|--------------------------------------|------------------------|
| Laser class                          | 2, IEC/EN 60825-1:2014 |
| Light spot size [at sensor distance] | 6 mm [10,000 mm]       |
| Type of light spot geometry          | Round                  |

#### **Measurement data**

| Measurement range                             | 200 30,000 mm  |
|---|--|
| Measurement range (6 90 % diffuse reflection) | 0 30,000 mm  |
| Measurement range (90 % diffuse reflection)   | 0 30,000 mm  |
| Resolution                                    | 0.1 mm display resolution, adjustable  |
| Resolution                                    | 1.0 mm   |
| Accuracy, short range                         | 2 %(+/-) without referencing / 1 % (+/-)<br>with referencing (with measurement<br>range up to 2.5 m) |
| Accuracy, distant range                       | 1 %(+/-) without referencing / 1 % (+/-)<br>with referencing (with measurement<br>range of 5 30 m)   |
| Reproducibility (3 sigma)                     | 2 mm   |
| Temperature drift                             | 0 0.5 mm/K   |
| Referencing                                   | Yes  |
| Standard measurement object                   | 100 x 100 mm <sup>2</sup>  |
| Optical distance measurement prin-<br>ciple   | Phase measurement  |
|   |  |

#### **Electrical data**

| Protective circuit             | Polarity reversal protection |
|--------------------------------|------------------------------|
|                                | Short circuit protected      |
|                                |                              |
| Performance data               |                              |
| Supply voltage U <sub>B</sub>  | 18 30 V, DC                  |
| Residual ripple                | 0 15 %, From U <sub>B</sub>  |
| Inputs                         |                              |
| Number of digital switching in | aputs 1 Piece(s)             |
| Switching inputs               |                              |
| Digital switching inpu         | it 1                         |
| Assignment                     | Connection 1, pin 2          |
| Function                       | Programmable                 |

Digital switching input 2 Assignment Function

Connection 1, pin 5 Programmable

# Leuze

Outputs

| Number of analog outputs            | 2 Piece(s)                  |
|-------------------------------------|-----------------------------|
| Number of digital switching outputs | 1 Piece(s)                  |
|                                     |                             |
| Analog outputs                      |                             |
|                                     |                             |
| Analog output 1                     |                             |
| Туре                                | Current                     |
| Assignment                          | Connection 1, pin 6         |
|                                     |                             |
| Analog output 2                     | Connection 1 min 7          |
| Assignment                          | Connection 1, pin 7         |
| Switching outputs                   |                             |
| Switching voltage                   | high: ≥(U <sub>B</sub> -2V) |
|                                     |                             |
| Switching output 1                  |                             |
| Assignment                          | Connection 1, pin 4         |
| Switching element                   | Transistor, Push-pull       |
|                                     |                             |

|    | Solve the product in accordance with its intended use.                              |

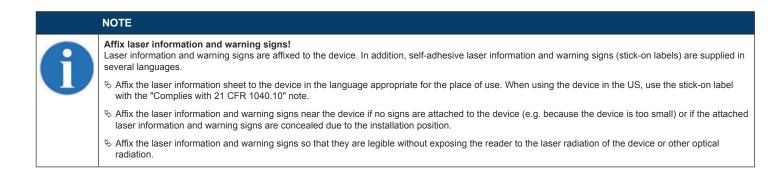

# ATTENTION! LASER RADIATION - CLASS 2 LASER PRODUCT Do not stare into beam! The device satisfies the requirements of IEC/EN 60825-1:2014 safety regulations for a product of laser class 2 as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to Laser Notice No. 56 from May 08, 2019. % Never look directly into the laser beam or in the direction of reflected laser beams! If you look into the beam path over a longer time period, there is a risk of injury to the retina. % Do not point the laser beam of the device at persons! % Interrupt the laser beam using a non-transparent, non-reflective object if the laser beam is accidentally directed towards a person. % When mounting and aligning the device, avoid reflections of the laser beam off reflective surfaces! % Observe the applicable statutory and local laser protection regulations. % The device must not be tampered with and must not be changed in any way. There are no user-serviceable parts inside the device. Repairs must only be performed by Leuze electronic GmbH + Co. KG.
