Technical data

Basic data

|                     |                      |
|---------------------|----------------------|
| Series              | 3C                   |
| Operating principle | Reflection principle |

Special version

|                 |                 |
|-----------------|-----------------|
| Special version | Autocollimation |
|                 | Teach input     |

Optical data

|                                      |  |
|--------------------------------------|--|
| Operating range                      | 0 ... 2 m  |
| Operating range                      | Guaranteed operating range                               |
| Reference reflector                  | With reflector MTKS 50x50.1                              |
| Operating range limit                | Typical operating range                                  |
| Operating range limit                | 0 ... 3 m, With reflector MTKS 50x50.1                   |
| Beam path                            | Collimated   |
| Light source                         | Laser, Red   |
| Wavelength                           | 655 nm   |
| Laser class                          | 1, in accordance with IEC 60825-1:2014 (EN 60825-1:2014) |
| Max. laser power                     | 0.0017 W   |
| Transmitted-signal shape             | Pulsed   |
| Pulse duration                       | 5.3 µs   |
| Light spot size [at sensor distance] | 1 mm [3,000 mm]  |
| Type of light spot geometry          | Round  |
| Shift angle                          | Typ. ± 2°  |

Electrical data

|                    |                              |
|--------------------|------------------------------|
| Protective circuit | Polarity reversal protection |
|                    | Short circuit protected      |

Performance data

|                      |  |
|----------------------|--|
| Supply voltage $U_B$ | 10 ... 30 V, DC, Incl. residual ripple |
| Residual ripple      | 0 ... 15 %, From $U_B$                 |
| Open-circuit current | 0 ... 15 mA                            |

Inputs

|                        |            |
|------------------------|------------|
| Number of teach inputs | 1 Piece(s) |
|------------------------|------------|

Teach inputs

|                   |                              |
|-------------------|------------------------------|
| Voltage type      | DC                           |
| Switching voltage | high: $\geq 0.65 \times U_B$ |
|                   | low: $\leq 0.35 \times U_B$  |
| Delay             | 1 ms                         |
| Input resistance  | 20,000 Ω                     |

Teach input 1

|                        |                        |
|------------------------|------------------------|
| Function               | Keyboard lockout       |
|                        | Light/dark switching   |
|                        | Sensitivity adjustment |
| Active switching state | High                   |

Outputs

|                                     |            |
|-------------------------------------|------------|
| Number of digital switching outputs | 1 Piece(s) |
|-------------------------------------|------------|

Switching outputs

|                         |                         |
|-------------------------|-------------------------|
| Voltage type            | DC                      |
| Switching current, max. | 100 mA                  |
| Switching voltage       | high: $\geq (U_B - 2V)$ |
|                         | low: $\leq 2 V$         |

Switching output 1

|                     |                 |
|---------------------|-----------------|
| Switching element   | Transistor, PNP |
| Switching principle | Light switching |

Time behavior

|                     |          |
|---------------------|----------|
| Switching frequency | 3,000 Hz |
| Response time       | 0.17 ms  |
| Readiness delay     | 300 ms   |

Connection

Connection 1

|                      |                     |
|----------------------|---------------------|
| Function             | Signal IN           |
|                      | Signal OUT          |
|                      | Voltage supply      |
| Type of connection   | Cable               |
| Cable length         | 2,000 mm            |
| Sheathing material   | PUR                 |
| Cable color          | Black               |
| Number of conductors | 4 -wire             |
| Wire cross section   | 0.2 mm <sup>2</sup> |

Mechanical data

|                            |                              |
|----------------------------|------------------------------|
| Dimension (W x H x L)      | 11.4 mm x 34.2 mm x 18.3 mm  |
| Housing material           | Plastic                      |
| Plastic housing            | PC-ABS                       |
| Lens cover material        | Plastic / PMMA               |
| Net weight                 | 50 g                         |
| Housing color              | Red                          |
| Type of fastening          | Two M3 threaded sleeves      |
|                            | Via optional mounting device |
| Compatibility of materials | ECOLAB                       |

Operation and display

|                                     |                        |
|-------------------------------------|------------------------|
| Type of display                     | LED                    |
| Number of LEDs                      | 2 Piece(s)             |
| Operational controls                | Teach button           |
| Function of the operational control | Sensitivity adjustment |

Environmental data

|                                |               |
|--------------------------------|---------------|
| Ambient temperature, operation | -40 ... 55 °C |
| Ambient temperature, storage   | -40 ... 70 °C |

Certifications

|                      |               |
|----------------------|---------------|
| Degree of protection | IP 67         |
|                      | IP 69K        |
| Protection class     | III           |
| Certifications       | c UL US       |
| Standards applied    | IEC 60947-5-2 |

All dimensions in millimeters

Electrical connection

Connection 1

|                      |                |
|----------------------|----------------|
| Function             | Signal IN      |
|                      | Signal OUT     |
|                      | Voltage supply |
| Type of connection   | Cable          |
| Cable length         | 2,000 mm       |
| Sheathing material   | PUR            |
| Cable color          | Black          |
| Number of conductors | 4 -wire        |
| Wire cross section   | 0.2 mm²        |

Conductor color

Conductor assignment

|       |          |
|-------|----------|
| Brown | V+       |
| White | Teach-in |
| Blue  | GND      |
| Black | OUT 1    |

Operation and display

| LED | Display                  | Meaning                              |
|-----|--------------------------|--------------------------------------|
| 1   | Green, continuous light  | Operational readiness                |
| 2   | Yellow, continuous light | Light path free                      |
|     | Yellow, flashing         | Light path free, no function reserve |

Reflectors & reflective tapes

Note

A list with all available device types can be found on the Leuze website at [www.leuze.com](http://www.leuze.com).

Notes

Observe intended use!

This product is not a safety sensor and is not intended as personnel protection.

The product may only be put into operation by competent persons.

Only use the product in accordance with its intended use.

For UL applications:

For UL applications, use is only permitted in Class 2 circuits in accordance with the NEC (National Electric Code).

These proximity switches shall be used with UL Listed Cable assemblies rated 30V, 0.5A min, in the field installation, or equivalent (categories: CYJV/ CYJV7 or PVVA/PVVA7)

WARNING! LASER RADIATION – CLASS 1 LASER PRODUCT

The device satisfies the requirements of IEC/EN 60825-1:2014 safety regulations for a product of **laser class 1** and complies with 21 CFR 1040.10 except for conformance with IEC 60825-1 Ed. 3., as described in Laser Notice No. 56, dated May 8, 2019.

Observe the applicable statutory and local laser protection regulations.

The device must not be tampered with and must not be changed in any way.  
There are no user-serviceable parts inside the device.  
Repairs must only be performed by Leuze electronic GmbH + Co. KG.

Further information

- Light source: Average life expectancy 50,000 h at an ambient temperature of 25 °C
- Response time: For short decay times, an ohmic load of approx. 5 kOhm is recommended
- Sum of the output currents for both outputs, 50 mA for ambient temperatures > 40 °C

Accessories
