

Power Supply Emparro20-Pro-1-phase

In: 90 - 264 VAC / 90 - 250 VDC; OUT: 42 - 56 V/10ADC Coated

Art.No.: 9000-16113-1221111

Weight: 0.89

Country of origin: CZ

Model designation: Emparro20-Pro-1-480-48-C

The single-phase DIN rail power supplies of the Emparro20-Pro series offer even more functions than the Emparro. With the optional IO-Link adapter the switching power supply can be controlled and monitored remotely which enables comprehensive integration into your control system. In addition these power supplies have integrated electronic load circuit monitoring which means that external line protection on the DC side is no longer required. This not only reduces the installation effort but also increases the reliability of the power supply. Emparro20-Pro also gives you access to extensive diagnostic information to minimize disruptions and downtime and maximize the efficiency of your application.
