# **SIEMENS**

## **Data sheet**

# 6GK7542-5DX10-0XE0

### product type designation

## CM 1542-5

communications module CM 1542-5 for connection of S7-1500 to PROFIBUS DP, DP-V1 master or DP Device, S7 and PG/OP communication, data record routing, time-of-day synchronization, diagnostics.

transfer rate	
transfer rate	
<ul> <li>at the 1st interface / according to PROFIBUS</li> </ul>	9.6 kbit/s 12 Mbit/s
interfaces	
number of interfaces / according to Industrial Ethernet	0
number of electrical connections	
at the 1st interface / according to PROFIBUS	1
type of electrical connection	
<ul> <li>at the 1st interface / according to PROFIBUS</li> </ul>	9-pin Sub-D socket (RS485)
supply voltage, current consumption, power loss	
type of voltage / of the supply voltage	DC
supply voltage / 1 / from backplane bus	15 V
relative symmetrical tolerance / at DC	
• at 15 V	3 %
consumed current	
<ul> <li>from backplane bus / at DC / at 15 V / typical</li> </ul>	0.2 A
power loss [W]	3 W
ambient conditions	
ambient temperature	
<ul> <li>for vertical installation / during operation</li> </ul>	-30 +40 °C
<ul> <li>for horizontally arranged busbars / during operation</li> </ul>	-30 +60 °C
during storage	-40 +70 °C
during transport	-40 +70 °C
• note	without condensation or icing
installation altitude / at height above sea level / maximum	5000 m
ambient condition / relating to ambient temperature - air pressure - installation altitude	restrictions for installation altitudes > 2 000 m, see manual
relative humidity	
<ul> <li>at 25 °C / without condensation / during operation / maximum</li> </ul>	95 %
protection class IP	IP20
design, dimensions and weights	
module format	Compact module S7-1500 single width
width	35 mm
height	142 mm
depth	129 mm
net weight	0.4 kg
fastening method	
<ul> <li>S7-1500 rail mounting</li> </ul>	Yes

product features, product functions, product components / gene	eral
number of units	
• per CPU / maximum	8
• note	depending on CPU type
performance data / open communication	asponancy on or o type
number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum	30
data volume	
as user data per connection / for open communication / by means of SEND/RECEIVE blocks / maximum	240 byte
performance data / PROFIBUS DP	
service / as DP master	
• DPV1	Yes
number of DP slaves	
on DP master / operable	125
data volume	
• of the address range of the inputs / as DP master / total	8192 byte
• of the address range of the outputs / as DP master / total	8192 byte
<ul> <li>of the address range of the inputs / per DP slave</li> </ul>	244 byte
of the address range of the outputs / per DP slave	244 byte
service / as DP slave	
• DPV0	Yes
• DPV1	Yes
data volume	
of the address range of the inputs / as DP slave / total	240 byte
of the address range of the outputs / as DP slave / total	240 byte
performance data / S7 communication	
number of possible connections / for S7 communication	
• maximum	48; depending on the system upper limit
performance data / multi-protocol mode	40
number of active connections / with multi-protocol mode performance data / telecontrol	48
protocol / is supported	
• TCP/IP	No
TCP/IP  product functions / management_configuration_engineering_  product function_engineering_  product function_engineering	No
product functions / management, configuration, engineering	No
product functions / management, configuration, engineering configuration software	
product functions / management, configuration, engineering configuration software • required	STEP 7 Professional V18 (TIA Portal) or higher
product functions / management, configuration, engineering  configuration software  • required  identification & maintenance function	STEP 7 Professional V18 (TIA Portal) or higher
product functions / management, configuration, engineering configuration software • required	
product functions / management, configuration, engineering configuration software	STEP 7 Professional V18 (TIA Portal) or higher  Yes
product functions / management, configuration, engineering configuration software	STEP 7 Professional V18 (TIA Portal) or higher  Yes
product functions / management, configuration, engineering configuration software	STEP 7 Professional V18 (TIA Portal) or higher  Yes Yes
product functions / management, configuration, engineering  configuration software  • required  identification & maintenance function  • I&M0 - device-specific information  • I&M1 - higher level designation/location designation  product functions / diagnostics  product function / web-based diagnostics	STEP 7 Professional V18 (TIA Portal) or higher  Yes Yes
product functions / management, configuration, engineering configuration software	STEP 7 Professional V18 (TIA Portal) or higher  Yes Yes Yes; via S7-1500 CPU

#### security information

security information

Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)

#### Approvals / Certificates
